TOPAZ®

Desktop Video Magnifier

At a Glance:

These sleek new TOPAZ models are our most versatile desktop video magnifiers yet.

- Clear, vivid image
- Ergonomic design with easy-to-use controls
- Directed LED lighting for a bright work surface without glare
- Extra large reading table
- 8.25 inches of workspace under the camera
- Freeze Frame
- Focus Lock
- 30 customizable high contrast text color modes
- True color and optional enhanced full color
- Widest magnification range
- Easily adjustable monitor

**Widescreen 20-inch, 22-inch, and 24-inch models
Plus Camera-only and 17-inch LCD models**

All the controls are right under the display – handy when you want them and never in the way of your reading material or your work.

Simple to use, yet packed with features

Just flip the switch to turn on the TOPAZ, and three dials are all you need for your basic video magnification functions – increase and decrease magnification, step through the available color modes, and adjust brightness.

Built-in holder to keep cans and bottles from rolling off the table

TOPAZ[®] Desktop Video Magnifier

Freedom Scientific

About Freedom Scientific

Freedom Scientific is the largest worldwide manufacturer of assistive technology products for those who are blind or have low vision. We offer a broad range of video magnifiers, scanning and reading solutions, and screen magnification software, as well as screen reading software, refreshable Braille displays, and notetakers for the blind. Freedom Scientific also has a line of software products for those with learning disabilities. All of these products are tested and guaranteed to work together.

Freedom Scientific has been in business for over ten years. The Company has offices in Florida and Switzerland. Its products have been translated into 24 languages and are available in 55 countries.
